

Directions to Woodland Park Cottages on I-95 North

In 2004 the state of Maine changed the exit numbers along I-95, The Maine Turnpike (MTP) and I-295 so that they match the distance from the start of the road. (ex. Exit 42 is 42 miles from the start of the road and would be at milemarker (mm) 42)

Mile Markers are little green signs along the right side of the road that tell you how far you have traveled along that road. Going south they count down to zero.
